DO'S AND DON'TS FOR PHYSICIANS

Practice Suggestions:

1. Use as much care in writing prescriptions as you would use in writing personal checks. Specify amounts and do not leave spaces for x's or o's to be added to raise the amount.

2. Do not leave your personal prescription pads in positions accessible to the public.

3. Do not leave signed, blank prescription pads in your office.

4. Do not write prescriptions for large quantities of Schedule 2 or 2N controlled substances.

5. Do not prescribe controlled substances without seeing the patient.

6. When you receive a call from a pharmacist requesting information about prescriptions you have written, respond courteously as, by law, a pharmacist is responsible for any forged prescription he fills.

7. Write a prescription for only one substance on each blank.

8. Do not prescribe for yourself or members of your family. Treating one's family is not illegal; but the Board wishes to remind you that such prescribing practices may lead to problems. Written records of all prescriptions for controlled substances and the medical indications for them should be maintained, but in many instances such recording is neglected. Also, any prescriptions issued should be within the scope of your normal medical practice. The Board urges you to delegate the medical care for yourself and members of your family to one or more of your colleagues in order to preclude involvement with governmental regulatory agencies who monitor physicians' prescribing practices.

9. Do not prescribe amphetamines or central nervous system stimulants for weight control. In 1972, the N.C. Medical Society adopted a resolution which is supported by the Board of Medical Examiners that "... the members of the N.C. Medical Society use no amphetamines or methamphetamines for appetite control and that the use of these drugs be restricted to the treatment of narcolepsy, hyperkinetic children and other disorders which in the opinion of the patient's physician will be beneficial."

10. Do not carry large stocks of controlled substances in your bag. Addicts look for these in physicians' offices and cars.

11. If DEA numbers are printed on prescriptions, they should be incomplete and completed only when the physician validates and signs the prescriptions.

LAWS OR REGULATIONS:

1. Sign prescriptions legibly in ink, never in pencil. The body of the prescription must be written legibly in ink or typewritten.
2. Prescriptions must contain the following information: full name and DEA # of prescribing physician; name, address and telephone number of prescribing physician's practice; indication of either "product selection permitted" or "dispense as written"; and full name and address of patient.
3. Only in emergency situations should you request pharmacists to fill prescriptions for Schedule 2 or 2N prescriptions over the telephone.
4. Prescribe controlled substances to drug dependent persons only under provisions regulated by law.
5. Dispense controlled substances, including samples, only when dispensing records are maintained for two or more years and containers with safety closure caps are properly labelled according to law. Physicians shall maintain a readily retrievable record of all controlled substances dispensed (or administered) whether or not the practitioner charges the patient for the controlled substance, including samples.
6. Do not write prescriptions for controlled substances for office use. The law requires that you purchase Schedule 2 and 2N controlled substances for your office on official order forms obtained from DEA. Schedule 3-5 drugs must be obtained through a wholesale distributor by means of a requisition.
7. Maintain security for any controlled substances including samples.
8. Take a biennial inventory of all controlled substances including samples.
9. Before disposing of used syringes or needles, render them inoperative.
10. The destruction of an outdated or unwanted controlled substance by a physician or his authorized agent shall be witnessed by a federal or state official who is authorized to enforce the Federal or State Controlled Substances Act.

LAWS OF NORTH CAROLINA RELATING TO THE PRACTICE OF MEDICINE (Including Amendments of 1987)

§ **90-1. North Carolina Medical Society Incorporated.** — The association of regularly graduated physicians, calling themselves the state Medical Society, is hereby declared to be a body politic and corporate, to be known and distinguished by the name of The Medical Society of the State of North Carolina. The name of the society is now the North Carolina Medical Society.

§ **90-2. Board of Medical Examiners.** —

(a) In order to properly regulate the practice of medicine and surgery, there is established a Board of Medical Examiners of the State of North Carolina. The Board shall consist of eight members. Seven of the members shall be duly licensed physicians elected and nominated to the Governor by the North Carolina Medical Society. The other member shall be a person chosen by the Governor to represent the public at large. The public member shall not be a health care provider nor the spouse of a health care provider. For purposes of board membership, "health care provider" means any licensed health care professional and any agent or employee of any health care institution, health care insurer, health care professional school, or a member of any allied health profession. For purposes of this section, a person enrolled in a program to prepare him to be a licensed health care professional or an allied health professional shall be deemed a health care provider. For purposes of this section, any person with significant financial interest in a health service or profession is not a public member.

(b) No member appointed to the Board on or after November 1, 1981, shall serve more than two complete consecutive three-year terms, except that each member shall serve until his successor is chosen and qualifies.

(c) In order to establish regularly overlapping terms, the terms of office of the members currently serving on the Board shall expire as follows: two on October 31, 1982; two on October 31, 1984; three on October 31, 1986. Terms of Board members shall expire in direct relation to their date of appointment by the society; the terms of the two members first appointed shall expire in 1982, and the terms of the three members last appointed shall expire in 1986. No initial physician member of the Board may serve another term until at least three years from the date of expiration of his current term. The Governor shall appoint the public member not later than October 31, 1981.

(d) Any initial or regular member of the Board may be removed from office by the Governor for good cause shown. Any vacancy in the initial or regular physician membership of the Board shall be filled for the period of the unexpired term by the Governor from a list of physicians submitted by the North Carolina Medical Society Executive Council. Any vacancy in the public membership of the Board shall be filled by the Governor for the unexpired term.

§ **90-3. Medical Society nominates Board.** — The Governor shall appoint as physician members of the Board physicians elected and nominated by the North Carolina Medical Society.

§ **90-4. Board elects officers; quorum.** — The Board of Medical Examiners is authorized to elect all officers and adopt all bylaws as may be necessary. A majority of the membership of the Board shall constitute a quorum for the transaction of business.

§ **90-5. Meetings of Board.** — The Board of Medical Examiners shall assemble once in every year in the City of Raleigh, and shall remain in session from day to day until all applicants who may present themselves for examination within the first two days of this meeting have been examined and disposed of; other meetings in each year may be held at some suitable point in the State if deemed advisable.

§ **90-6. Regulations governing applicants for license, examination, etc.; appointment of subcommittee.** — The Board of Medical Examiners is empowered to prescribe such regulations as it may deem proper, governing applicants for license, admission to examinations, the conduct of applicants during examinations, and the conduct of examinations proper.

The Board of Medical Examiners shall appoint and maintain a subcommittee to work jointly with a subcommittee of the Board of Nursing to develop rules and regulations to govern the performance of medical acts by registered nurses, including the determination of reasonable fees to accompany an application for approval not to exceed one hundred dollars ($100.00) and for renewal of such approval not to exceed fifty dollars ($50.00). The fee for reactivation of an inactive incomplete application shall be five dollars ($5.00). Rules and regulations developed by this subcommittee from time to time shall govern the performance of medical acts by registered nurses and shall become effective when adopted by both the Board of Medical Examiners and the Board of Nursing. The Board of Medical Examiners shall have responsibility for securing compliance with these regulations.

§ **90-7. Bond of secretary.** — The secretary of the Board of Medical Examiners shall give bond with good surety, to the president of the Board, for the safekeeping and proper payment of all moneys that may come into his hands.

§ **90.8 Officers may administer oaths, and subpeona witnesses, records and other materials.** — The president and secretary of the Board may administer oaths to all persons appearing before it as the board may deem necessary to perform its duties, and to summon and to issue subpoenas for the appearance of any witnesses deemed necessary to testify concerning any matter to be heard before or inquired into by the Board, and to order that any documents or other material concerning any matter to be heard before or inquired into by the Board shall be produced before the Board or made available for inspection. Upon written request, the Board shall revoke a subpoena if, upon a hearing, it finds that the evidence the production of which is required does not relate to a matter in issue, or if the subpoena does not describe with sufficient particularity the evidence the production of which is required, or if for any other reason in law the subpoena is invalid.

§ **90-9. Examination for license; scope; conditions and prerequisites.** — It shall be the duty of the Board of Medical Examiners to examine for license to practice medicine or surgery, or any of the branches thereof, every applicant who complies with the following provisions: He shall, before he is admitted to examination, satisfy the Board that he has an academic education equal to the entrance requirements of the University of North Carolina, or furnish a certificate from the superintendent of public instruction of the county that he has passed an examination upon his literary attainments to meet the requirements of entrance in the regular course of the State University. He shall exhibit a diploma or furnish satisfactory proof of graduation from a medical college or an osteopathic college approved by the American Osteopathic Association at the time of his graduation, which time of graduation shall have been on January 1, 1960, or subsequent thereto and which medical and osteopathic schools shall require an attendance of not less than four years or for a lesser period of time approved by the Board, and supply such facilities for clinical and scientific instruction as shall meet the approval of the Board. An applicant shall have graduated from a medical college approved by the Liaison Commission on Medical Education or osteopathic college that has been approved by the American Osteopathic Association; or, if he was graduated from any other medical or osteopathic college, the applicant shall be enrolled in a graduate medical education and training program in North

Carolina which has been approved by the Board. An applicant who has graduated from a medical college not approved by the Liaison Commission on Medical Education or osteopathic college that has not been approved by the American Osteopathic Association and who has not enrolled in a graduate medical education and training program in North Carolina which has been approved by the Board shall satisfy the Board that he has successfully completed three years of graduate medical education in a training program approved by the Board. No applicant from a medical or osteopathic college which has been disapproved by the Board shall be eligible to take the examination.

The examination shall cover the branches of medical science and subjects which the Board deems necessary to determine competence to practice medicine. The Board may divide the examination into parts or components.

If the applicant successfully passes the examination, as determined by the Board, and if the applicant satisfies the Board that he is of good moral character and that either, (1) if the applicant is a graduate of a medical college approved by the Liaison Commission on Medical Education or osteopathic college approved by the American Osteopathic Association, he has successfully completed one year of training in a medical education program approved by the Board after graduation from medical school; or (2) if the applicant is a graduate of a medical college that has not been approved by the Liaison Commission on Medical Education or osteopathic college that has not been approved by the American Osteopathic Association, he has successfully completed three years of training in a medical education program approved by the Board after graduation from medical school, then the Board shall grant the applicant a license authorizing him to practice medicine in any of its branches.

Applicants shall be examined by number only; names and other identifying information shall not appear on examination papers.

§ **90-10. Provision in lieu of examination.** — In lieu of the above examination, the Board may grant a license to an applicant who is found to have passed the examination given by the National Board of Medical Examiners, or who has passed such other examination which the Board deems to be equivalent to the examination given by the Board, provided the applicant meets the other qualifications set forth in this Article.

§ **90-11. Qualifications of applicant for license.** — Every applicant for a license to practice medicine or for approval to perform medical acts in the State shall satisfy the Board of Medical Examiners that such applicant is of good moral character and meets the other qualifications for the issuance of such a license or for such approval before any such license or approval is granted by the Board to such applicant.

§ **90-12. Limited license.** — The Board may, whenever in its opinion the conditions of the locality where the applicant resides are such as to render it advisable, make such modifications of the requirements of G.S. 90-9, 90-10, and 90-11 as in its judgment the interests of the people living in that locality may demand, and may issue to such applicant a special license, to be entitled a "Limited License," authorizing the holder thereof to practice medicine and surgery within the limits only of the districts specifically described therein. The holder of the limited license practicing medicine or surgery beyond the boundaries of the districts as laid down in said license shall be guilty of a misdemeanor, and upon conviction shall be fined not less than twenty-five dollars ($25.00) nor more than fifty dollars ($50.00) for each and every offense; and the Board is empowered to revoke such limited license, in its discretion, after due notice.

§ **90-13. When license without examination allowed.** — The Board of Medical Examiners shall in their discretion issue a license to any applicant to practice medicine and surgery in this State without examination if said applicant exhibits a diploma or satisfactory proof of graduation from a medical or osteopathic college, approved as provided in G.S. 90-9 and requiring an attendance of not less than four years or for such lesser period of time approved by the Board, and a license issued to him to practice medicine and surgery by the

Board of Medical Examiners of another state, and has successfully completed one year of training after his graduation from medical college in a medical education and training program approved by the Board, in which program the Board may permit him to practice medicine. An applicant for licensing under this section who was graduated from a medical college not approved by the Liaison Commission on Medical Education or osteopathic college that has not been approved by the American Osteopathic Association shall have successfully completed three years of training in a medical education and training program approved by the Board after graduation. The Board may grant a license under this section for any period of time and with any conditions it deems appropriate. No license may be granted to any applicant who was graduated from a medical or osteopathic college which has been disapproved by the Board.

§ 90-14. Revocation, suspension, annulment or denial of license. —

(a) The Board shall have the power to deny, annul, suspend, or revoke a license, or other authority to practice medicine in this State, issued by the Board to any person who has been found by the Board to have committed any of the following acts or conduct, or for any of the following reasons:

(1) Immoral or dishonorable conduct;

(2) Producing or attempting to produce an abortion contrary to law;

(3) Made false statements or representations to the Board, or who has willfully concealed from the Board material information in connection with his application for a license;

(4) Repealed by Session Laws 1977, c. 838, s. 3.

(5) Being unable to practice medicine with reasonable skill and safety to patients by reason of illness, drunkeness, excessive use of alcohol, drugs, chemicals, or any other type of material or by reason of any physical or mental abnormality. The Board is empowered and authorized to require a physician licensed by it to submit to a mental or physical examination by physicians designated by the Board before or after charges may be presented against him, and the results of examination shall be admissible in evidence in a hearing before the Board;

(6) Unprofessional conduct, including, but not limited to, any departure from, or the failure to conform to, the standards of acceptable and prevailing medical practice, or the ethics of the medical profession, irrespective of whether or not a patient is injured thereby, or the committing of any act contrary to honesty, justice, or good morals, whether the same is committed in the course of his practice or otherwise, and whether committed within or without North Carolina;

(7) Conviction in any court of a crime involving moral turpitude, or the violation of a law involving the practice of medicine, or a conviction of a felony; provided that a felony conviction shall be treated as provided in subsection (c) of this section;

(8) By false representations has obtained or attempted to obtain practice, money or anything of value;

(9) Has advertised or publicly professed to treat human ailments under a system of school of treatment or practice other than that for which he has been educated;

(10) Adjudication of mental incompetency, which shall automatically suspend a license unless the Board orders otherwise;

(11) Lack of professional competence to practice medicine with a reasonable degree of skill and safety for patients. In this connection the Board may consider repeated acts of a physician indicating his failure to properly treat a patient and may require such physician to submit to inquiries or examinations, written or oral, by members of the Board or by other physicians licensed to practice medicine in this State, as the Board deems necessary to determine the professional qualifications of such licensee;

(12) Promotion of the sale of drugs, devices, appliances or goods for a patient, or providing services to a patient, in such a manner as to exploit the patient for financial gain of the physician; and upon a finding of the exploi-

tation for financial gain, the Board may order restitution be made to the payer of the bill, whether the patient or the insurer, by the physician; provided that a determination of the amount of restitution shall be based on credible testimony in the record;

(13) Suspension or revocation of a license to practice medicine in any other state, or territory of the United States, or other country.

(14) The failure to respond, within a reasonable period of time and in a reasonable manner as determined by the Board, to inquiries from the Board concerning any matter affecting the license to practice medicine.

For any of the foregoing reasons, the Board may deny the issuance of a license to an applicant or revoke a license issued to him, may suspend such a license for a period of time, and may impose conditions upon the continued practice after such period of suspension as the Board may deem advisable, may limit the accused physician's practice of medicine with respect to the extent, nature or location of his practice as the Board deems advisable. The Board may, in its discretion and upon such terms and conditions and for such period of time as it may prescribe, restore a license so revoked or rescinded.

(b) The Board shall refer to the State Medical Society Physician Health and Effectiveness Committee all physicians whose health and effectiveness have been significantly impaired by alcohol, drug addiction or mental illness.

(c) A felony conviction shall result in the automatic revocation of a license issued by the Board, unless the Board orders otherwise or receives a request for a hearing from the person within 60 days of receiving notice from the Board, after the conviction, of the provisions of this subsection. If the Board receives a timely request for a hearing in such a case, the provisions of G.S. 90-14.2 shall be followed.

(d) The Board and its members and staff may release confidential or nonpublic information to any health care licensure board in this State or another state about the issuance, denial, annulment, suspension, or revocation of a license, or the voluntary surrender of a license by a Board-licensed physician, including the reasons for the action, or an investigative report made by the Board. The Board shall notify the physician within 60 days after the information is transmitted. A summary of the information that is being transmitted shall be furnished to the physician. If the physician requests, in writing, within 30 days after being notified that such information has been transmitted, he shall be furnished a copy of all information so transmitted. The notice or copies of the information shall not be provided if the information relates to an ongoing criminal investigation by any law-enforcement agency, or authorized Department of Human Resources personnel with enforcement or investigative responsibilities.

(e) The Board and its members and staff shall not be held liable in any civil or criminal proceeding for exercising, in good faith, the powers and duties authorized by law.

§ 90-14.1. Judicial review of Board's decision denying issuance of a license. — Whenever the Board of Medical Examiners has determined that a person who has duly made application to take an examination to be given by the Board showing his education, training and other qualifications required by said Board, or that a person who has taken and passed an examination given by the Board, has failed to satisfy the Board of his qualifications to be examined or to be issued a license, for any cause other than failure to pass an examination, the Board shall immediately notify such person of its decision, and indicate in what respect the applicant has so failed to satisfy the Board. Such applicant shall be given a formal hearing before the Board upon request of such applicant filed with or mailed by registered mail to the secretary of the Board at Raleigh, North Carolina, within 10 days after receipt of the Board's decision, stating the reasons for such request. The Board shall within 20 days of receipt of such request notify such applicant of the time and place of a public hearing, which shall be held within a reasonable time. The burden of satisfying the Board of his qualifications for licensure shall be upon the applicant. Following such hearing, the Board shall determine whether the applicant is qualified to be examined or is entitled to be licensed as the case may be. Any such decision of the Board shall be subject to judicial review upon appeal to the Superior Court of Wake County upon the filing with the Board of a written notice of appeal with exceptions taken to the decision

of the Board within 20 days after service of notice of the Board's final decision. Within 30 days after receipt of notice of appeal, the secretary of the Board shall certify to the clerk of the Superior Court of Wake County the record of the case which shall include a copy of the notice of hearing, a transcript of the testimony and evidence received at the hearing, a copy of the decision of the Board, and a copy of the notice of appeal and exceptions. Upon appeal the case shall be heard by the judge without a jury, upon the record, except that in cases of alleged omissions or errors in the record, testimony may be taken by the court. The decision of the Board shall be upheld unless the substantial rights of the applicant have been prejudiced because the decision of the Board is in violation of law or is not supported by any evidence admissible under this Article, or is arbitrary or capricious. Each party to the review proceeding may appeal to the Supreme Court as hereinafter provided in G.S. 90-14.11.

§ **90-14.2. Hearings before revocation or suspension of a license.** — Before the Board shall revoke, restrict or suspend any license granted by it, the licensee shall be given a written notice indicating the general nature of the charges, accusation, or complaint made against him, which notice may be prepared by a committee of one or more members of the Board designated by the Board, and stating that such licensee will be given an opportunity to be heard concerning such charges or complaint at a time and place stated in such notice, or at a time and place to be thereafter designated by the Board, and the Board shall hold a public hearing not less than 30 days from the date of the service of such notice upon such licensee, at which such licensee may appear personally and through counsel, may cross-examine witnesses and present evidence in his own behalf. A physician who is mentally incompetent shall be represented at such hearing and shall be served with notice as herein provided by and through a guardian ad litem appointed by the clerk of the court of the county in which the physician has his residence. Such licensee or physician may, if he desires, file written answers to the charges or complaints preferred against him within 30 days after the service of such notice, which answer shall become a part of the record but shall not constitute evidence in the case.

§ **90-14.3. Service of notices.** — Any notice required by this Chapter may be served either personally or by an officer authorized by law to serve process, or by registered mail, return receipt requested, directed to the licensee or applicant at his last known address as shown by the records of the Board. If notice is served personally, it shall be deemed to have been served at the time when the officer delivers the notice to the person addressed. Where notice is served by registered mail, it shall be deemed to have been served on the date borne by the return receipt showing delivery of the notice to addressee or refusal of the addressee to accept the notice.

§ **90-14.4. Place of hearings for revocation or suspension of license.** — Upon written request of the accused physician to the secretary of the Board within 20 days after service of the charges or complaints against him, a hearing for the purpose of determining revocation or suspension of his license shall be conducted in the county in which such physician maintains his residence, or at the election of the Board, in any county in which the act or acts complained of occurred. In the absence of such request, the hearing shall be held at a place designated by the Board, or as agreed upon by the physician and the Board.

§ **90-14.5. Use of trial examiner or depositions.** — Where the licensee requests that the hearing herein provided for be held by the Board in a county other than the county designated for the holding of the meeting of the Board at which the matter is to be heard, the Board may designate in writing one or more of its members to conduct the hearing as a trial examiner or trial committee, to take evidence and report a written transcript thereof to the Board at a meeting where a majority of the members are present and participating in the decision. Evidence and testimony may also be presented at such hearings and to the Board in the form of depositions taken before any person designated in writing by the Board for such purpose or before any person authorized to administer oaths, in accordance with the procedure for the taking of depositions in civil actions in the superior court.

§ **90-14.6 Evidence admissible.** — In proceedings held pursuant to this Article the Board shall admit and hear evidence in the same manner and form as prescribed by law for civil actions. A complete record of such evidence shall be made, together with the other proceedings incident to such hearing.

§ **90-14.7. Procedure where person fails to request or appear for hearing.** — If a person who has requested a hearing does not appear, and no continuance has been granted, the Board or its trial examiner or committee may hear the evidence of such witnesses as may have appeared, and the Board may proceed to consider the matter and dispose of it on the basis of the evidence before it. For good cause, the Board may reopen any case for further hearing.

§ **90-14.8. Appeal from Board's decision revoking or suspending a license.** — A physician whose license is revoked or suspended by the Board may obtain a review of the decision of the Board in the Superior Court of Wake County or in the superior court in the county in which the hearing was held or upon agreement of the parties to the appeal in any other superior court of the State, upon filing with the secretary of the Board a written notice of appeal within 20 days after the date of the service of the decision of the Board, stating all exceptions taken to the decision of the Board and indicating the court in which the appeal is to be heard.

Within 30 days after the receipt of a notice of appeal as herein provided, the Board shall prepare, certify and file with the clerk of the superior court in the county to which the appeal is directed the record of the case comprising a copy of the charges, notice of hearing, transcript of testimony, and copies of documents or other written evidence produced at the hearing, decision of the Board, and notice of appeal containing exceptions to the decision of the Board.

§ **90-14.9. Appeal bond; stay of Board order.** — The person seeking the review shall file with the clerk of the reviewing court a copy of the notice of appeal and an appeal bond of two hundred dollars ($200.00) at the same time the notice of appeal is filed with the Board. At any time before or during the review proceeding the aggrieved person may apply to the reviewing court for an order staying the operation of the Board decision pending the outcome of the review, which the court may grant or deny in its discretion.

§ **90-14.10. Scope of review.** — Upon the review of the Board's decision revoking or suspending a license, the case shall be heard by the judge without a jury, upon the record, except that in cases of alleged omissions or errors in the record, testimony thereon may be taken by the court. The court may affirm the decision of the Board or remand the case for further proceedings; or it may reverse or modify the decision if the substantial rights of the accused physician have been prejudiced because the findings or decisions of the Board are in violation of substantive or procedural law, or are not supported by competent, material, and substantial evidence admissible under this Article, or are arbitrary or capricious. At any time after the notice of appeal has been filed, the court may remand the case to the Board for the hearing of any additional evidence which is material and is not cumulative and which could not reasonably have been presented at the hearing before the Board.

§ **90-14.11. Appeal to Supreme Court; appeal bond.** — Any party to the review proceeding, including the Board, may appeal to the Supreme Court from the decision of the superior court under rules of procedure applicable in other civil cases. No appeal bond shall be required of the Board. The appealing party may apply to the superior court for a stay of that court's decision or a stay of the Board's decision, whichever shall be appropriate, pending the outcome of the appeal to the Supreme Court.

§ **90-14.12. Injunctions.** — The Board may appear in its own name in the superior courts in an action for injunctive relief to prevent violation of this Article and the superior courts shall have power to grant such injunctions regardless of whether criminal prosecution has been or may be instituted as a result of such violations. Actions under this section shall be commenced in the judicial district in

which the respondent resides or has his principal place of business or in which the alleged acts occurred.

§ 90-14.13. Reports of disciplinary action by health care insitutions; immunity from liability. — The chief administrative officer of every licensed hospital or other health care institution in the State shall, after consultation with the chief of staff of such institution, report to the Board any revocation, suspension, or limitation of a physician's privileges to practice in that institution. Each such institution shall also report to the Board resignations from practice in that institution by persons licensed under this Article. The Board shall report all violations of this subsection known to it to the licensing agency for the institution involved.

Application forms submitted to the board must be completed in every detail. Every supporting document required by the application form must be submitted with each application.

If for any reason an assistant discontinues working at the direction or under the supervision of the physician who submitted the application under which the assistant is approved, such assistant shall so inform the board and his approval shall terminate until such time as a new application is submitted by the same or another physician and it is approved by the board.

When the proposed medical functions of an assistant to a physician shall include the prescribing of drugs, the supervising (backup) physician and the assistant shall review the formulary approved by the board, and shall acknowledge in the application to the board that they are familiar with the formulary and that such formulary will be a part of and incorporated in the approved standing orders. Changes in the formulary are to be approved by the board. In regard to changes the approved formulary may include any over-the-counter or non-prescription drug.

Prescriptions, except controlled substances, may upon specific orders of the supervising physician given before the prescription is issued, be written and issued by such assistant for the use by patients of drugs which are not included in the formulary. Such prescriptions shall be signed by the assistant with a notation thereon that the same was issued upon the specific order of the supervising physician. For example: Mary Smith, P.A., on order of John Poe, M.D. However, no prescription shall be written or issued by such assistant for any drugs which are specified as controlled substances under the Federal Controlled Substances Act.

Assistants to physicians who are approved to prescribe drugs as herein provided shall be assigned a number which shall appear on all prescriptions issued by such assistant. The names and numbers of such assistants shall be recorded and transmitted to the North Carolina Board of Pharmacy.

.0003 Requirements for Approval

(1) be of good moral character and have satisfied the requirements of 21 NCAC 32D .0004 hereof;

(2) give evidence that he has successfully completed a training program recognized by the board under 21 NCAC 32D .0005 hereof.

In hearings held pursuant to this Rule, the board shall admit and hear evidence in the same manner and form as prescribed by law for civil actions.

.0004 Moral Character

Every applicant shall be of good moral character, and the applicant shall have the burden of proving that he is possessed of good moral character.

All information furnished to the board by an applicant, and all answers and questions upon forms furnished by the board shall be deemed material and such forms and information shall be and become a permanent record of the board.

All investigations in reference to the moral character of an applicant may be informal, but shall be thorough, with the object of ascertaining the truth. Neither the hearsay rule, nor any other technical rule of evidence need be observed.

Every applicant may be required to appear before the board to be examined about any matter pertaining to his moral character.

.0005 Requirements for Recognition of Training Programs

Application for recognition of a training program by the board shall be made by letter and supporting documents from the director of the program and must demonstrate to the satisfaction of the board that such program fulfills the requirements set forth in the second through the eighth paragraph of this Rule. (All physicians' assistant programs approved by the American Medical Association Council on Medical Education are recognized by the board.)

The training program must be sponsored by a college or university with appropriate arrangements for the clinical training of its students, such as a hospital maintaining a teaching program. There must be evidence that the program has education as its primary orientation and objective.

The program must be under the supervision of a qualified director, who has at his disposal the resources of competent personnel adequately trained in the administration and operation of educational programs.

Adequate space, light and modern equipment must be provided for all necessary teaching functions. A library, containing up-to-date textbooks, scientific periodicals, and reference material pertaining to clinical medicine, its underlying scientific disciplines, and its specialties, shall be readily accessible to students and faculty.

The curriculum must provide adequate instruction in the basic sciences underlying the medical practice to provide the trainee with an understanding of the nature of disease processes and symptoms, abnormal tests, drug actions, etc. This must be combined with instruction, observation and participation in history taking, physical examination, therapeutic procedures, etc. This should be in sufficient depth to enable the graduate to integrate and organize historical and physical findings. The didactic instruction shall follow a planned and progressive outline and shall include an appropriate mixture of classroom lectures, textbook assignments, discussions, demonstrations, and similar activities. Instruction shall include practical instruction and clinical experience under qualified supervision sufficient to provide understanding of a skill in performing those clinical functions which the assistant may be asked to perform. There must be sufficient evaluative procedures to assure adequate evidence of competence. Although the student may concentrate his effort and his interest in a particular specialty of medicine, the program must insure that he possesses a broad general understanding of medical practice and therapeutic techniques.

Although some variation may be possible for the individual student, dependent on aptitude, previous education, and experience, the curriculum shall be designed to require two or more academic years for completion.

The program must have a faculty competent to teach the didactic and clinical material which comprises the curriculum.The faculty shall include at least one instructor who is a graduate of medicine, licensed to practice in the location of the school, and whose training and experience enable him to properly supervise progress and teaching in clinical subjects. He shall be in attendance for sufficient time to insure proper exposure of the student to clinical teaching and practice. The program may utilize instuctors other than

physicians, but sufficient exposure to clinical medicine must be provided to insure understanding of the patient, his problem, and the diagnostic and therapeutic responses to this problem.

The program must, through appropriate entrance requirements, insure that candidates accepted for training possess: (1) ability to use written and spoken language in effective communication with physicians, patients, and others; (2) quantification skills to insure proper calculation and interpretation of tests; (3) behavioral characteristics of honesty and dependability; and (4) high ethical and moral standards, in order to safeguard the interest of patients and others.

To retain its recognition by the board, a recognized program shall:

(a) make available to the board yearly summaries of case loads and educational activities done by clinical affiliates, including volume of outpatient visits, number of inpatients, and the operating budget;
(b) maintain a satisfactory record of the entrance qualifications and evaluations of all work done by each student, which shall be available to the board; and
(c) notify the board in writing of any major changes in the curriculum or a change in the directorship of the program.

Recognition of a program may be withdrawn when, in the opinion of the board, the program fails to maintain the educational standards described above. When a program has not been in operation for a period of two consecutive years, recognition will automatically be withdrawn. Withdrawal of recognition from a program will in no way affect the status of an assistant who graduated from such program while it was recognized and who has been approved by the board.

.0006 Termination of Approval

The approval of an assistant shall be terminated by the board when, after due notice and hearing in accordance with the provisions of this Rule, it shall find:

(1) that the assistant has held himself out or permitted another to represent him as a licensed physician;
(2) that the assistant has in fact performed otherwise than at the direction or under the supervision of a physician licensed by the board;

(5) that the assistant has been convicted in any court, state or federal, of any felony or other criminal offense involving moral turpitude;
(6) that the assistant has been adjudicated a mental incompetent or whose mental condition renders him unable to safely perform as an assistant to a physician; or
(7) that the assistant has failed to comply with any of the provisions of 21 NCAC 32D .0007 hereof.

Before the board shall terminate approval granted by it to an assistant it will give to the assistant and to the physician to whom he is certified a written notice indicating the general nature of the charges, accusation, or complaint preferred against him and stating that the assistant will be given an opportunity to be heard concerning such charges or complaints at a time and place stated in such notice, or to be thereafter fixed by the board, and shall hold a public hearing within a reasonable time. Following such hearing, the board shall determine on these regulations whether the approval of the assistant shall be terminated.

In hearings held pursuant to this Rule, the board shall admit and hear evidence in the same manner and form as prescribed by law for civil actions.

.0007 Method of Performance

An assistant must clearly identify himself as an assistant to a physician, a physician's assistant, or by some other appropriate designation, in order to insure that he is not mistaken for a licensed physician. This may be accomplished, for example, by the wearing of an appropriate name tag.

specify to the board those circumstances which would justify this action and the written policies established to protect the patient.
